

The activity that MEYPAR considers to be in accordance with the quality required by the ISO 9001 International Standard and the requirements of our clients is:

***DESIGN, MANUFACTURE, INSTALLATION, MAINTENANCE, REPAIR AND
MARKETING OF ACCESS CONTROL AND PAYMENT SYSTEMS.***

By means of this document, which is known to and accepted by all the members of MEYPAR, we wish to express our ongoing commitment to Quality, the Environment and Occupational Risk Prevention.

MEYPAR's Management is committed to implementing and maintaining a Quality System based on the ISO 9001 standard. The requirements established as essential are:

- To supply products and services that are of sufficient Quality to satisfy the needs of current and future clients in terms of price and time. Including regulations, customer requirements and all applicable legal provisions.
- To maintain and develop the Quality System in order to improve the communication and training of all MEYPAR staff, with the aim of obtaining an active participation and teamwork that will make it possible to achieve: commitment to continuous improvement, adequate Occupational Risk Prevention and respect for the Environment.
- To develop, apply and maintain a preventive approach in all MEYPAR's activities with special emphasis on the safety, health and welfare of workers, subcontractors and visitors.
- To have the necessary means and resources to implement the policy and objectives in such a way that all MEYPAR staff are involved.
- To consolidate the process of continuous improvement in the performance of all activities carried out at MEYPAR.

In order to develop these principles, the principles and practices of the Quality Management System will be applied, establishing adequate and quantifiable objectives on an annual basis. The development of these objectives will be monitored in order to ensure that they are met.

This policy is available to everyone.
